***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the invention relates to a process of making epothilone precursors, and protected epothilones comprising coupling and protecting reactions in the claims. The novelty relates to the starting compounds subject to coupling reaction. No prior art of record discloses the instant process of making. The closest art of Sawada et al., *Angewandte Chemie, Int. Ed.* (2000), Vol. 39, No. 1, pages 209-213, discloses a similar coupling process but the two starting compounds have slightly different structures compared with the instant starting compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

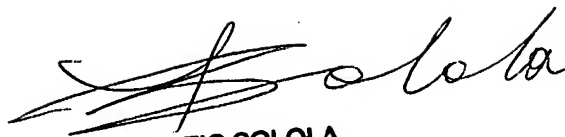

***Telephone Inquiry***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Taofiq A. Solola, PhD., JD., whose telephone number is (571) 272-0709.
